Dear Courtney Jenkins,

Hello, I'm an experienced software developer with strong communication and organizational skills, and having collaborated in an Agile/Scrum team environment before. This letter is regarding the opening for the Software Engineer I position.

I admire the values of teamwork and integrity represented at Emergency Reporting, and the similar values embodied by the brave firefighters in America today in keeping us safe. Through working as a team and writing responsible and high quality code, I too hope I can help contribute and grow in a similar vein.

I know trying to find the right candidate can be difficult. Attached is my resume, and let me know if you think I'd be a good fit. I believe I could be a helpful addition to your team!

Thank you for your time.

Sincerely,
Eric
