Dear Office of Financial Management Recruiting Team,

Hello, I'm an experienced web developer with strong .NET skills. This letter is regarding the Application Developer position that was posted on the WA State Careers site. I admire OFM's mission of helping Washingtonians, and fostering a competitive workforce while still encouraging a work/life balance.

During my time with PeopleTech, I have written various applications based on needs of end users. My most recent one was a contract with the WA State Investment board. It was a .NET Core web application, and I wrote both the front end UI and the back end code that it interfaced with the SQL database in an object-oriented way with C# and Entity Framework.

I know trying to find the right candidate can be difficult. With my previous experience as a .Net Developer in a similar domain, I think I would be a good fit and a helpful addition to your team!

Thank you for your time
Sincerely, Eric Sheng
